Blind Joints - Overview

For 8-45 Series (Slot Width 10mm) Aluminum Extrusions

Blind Joint Components

Screw Joints for 8-45 Series (Slot Width 10mm) Aluminum Extrusions

For details of fastening method, see P.603. Alterations necessary to use this component

> Wrench Hole ₽Œ P.757 P.759

Features of Blind Joints

Connection inside of the extrusions provides good apearance. Also convenient where interference inside of the corners are not desired or panels need to be inserted into the extrusion slots.
